

# RUSSIAN STEAM ROLLER TACTICS MAKE GAINS IN EASTERN WARFARE

LONDON OBSERVERS CLAIM RUSSIAN STRENGTH SHOWS RESULT IN THREE OBJECTIVE POINTS.

## CONFERENCE AT BERLIN

Austrian Crown Prince, German Chancellor and New Austrian Minister Discuss Campaign Plans—No Important Fighting Today.

Fighting between Austrians and Montenegrins, which has been almost at a standstill on account of the winter weather and heavy snow, has been resumed across the border from Cattaro. The Austrians bombarded Montenegrin positions, but it is said at Cattaro that no damage was inflicted. The allies now have their eyes on the Rhine and British troops may be sent to Belfort, in eastern France, to take part in any possible advance toward the river, says a Geneva report, which lacks verification. It is stated that the advance French trenches are within sixteen miles of the Rhine.

Russian accounts of the war with Turkey make it appear that resistance of the Ottoman troops have virtually collapsed. An official statement today from the Russian staff of the Caucasian army says that further advances have been effected on the Turkish troops in a series of near guard actions and that the Turks after suffering heavy losses are retreating precipitately. The statement announced the capture of Tarsus, a town near the Turkish border. It is also said that a Russian warship sank twelve vessels off the coast of Asia Minor.

[BY ASSOCIATED PRESS.] London, Jan. 21.—Russia's three fold assault on the German allies has in the opinion of British observers of the war, resumed its steam roller characteristics alike in the north, the center and the south.

In the north the advance into East Prussia is reported as threatening the German lines of communication and in Poland the trench warfare continues with small results for either side, but the Russians are reported to be in efforts to hold the present positions. In the south the Russians declare that the Austrians' resistance seems to have broken down entirely, and that Transylvania is open to them.

Wait Rumania's Move. Reports of Rumania's long awaited entrance into the fighting continue to circulate. One rumor today has it, however, that Rumania will not immediately declare war but that she will throw troops into Transylvania, which is Hungarian territory, for the purpose of protecting Rumanian citizens.

Meanwhile German official utterances continue optimistic. The communications given out today say that the situation in the eastern theatre of the war remains unchanged. Certain semi-official German reports received in London, from wireless, say that Berlin is somewhat more communicative. Such a message received recently says that the Russians have been successful in capturing the town of Tiflis, and that the Turks have been operating successfully in the Caucasus and are now marching on Egypt.

Conference at Berlin. Telegrams reaching here from Berlin record the arrival there of Archduke Charles, the Austrian crown prince, and Dr. von Bethmann-Hollweg, the German imperial chancellor, who are to be joined shortly by Baron Burián, the new Austro-Hungarian foreign minister, presumably for a conference regarding a plan of campaign against Russia as well as the adoption of suitable measures against the prospective entrance into the war of Italy and Rumania.

Recent dispatches from Sweden indicate that a German ship attack on the new Finnish railroad between Sweden and Russia is coming to be regarded as the line that runs around the northern end of the Gulf of Bothnia. Its destruction would be a serious blow to Russia, as the only other route of communication between Russian and her allies are by the way of the Baltic Sea through Archangel on the north. The German attack has been made impossible by mines and the latter is likely to be cut off any day by ice.

In the western arena of the war the activity has been generally confined to artillery exchanges except south of Metz, where sharp fighting promises interesting developments.

Menace Russian Rear. Petrograd, Jan. 21.—German forces have appeared in the rear of the Russian army which is advancing toward the Prussian border. They are along the route to Ploesk, forty miles north-west of Warsaw to Gostin, thus between the advancing Russian army and the Polish capital. So far as is known, only comparatively small numbers of Germans, consisting of reconnoitering detachments, are in this locality.

The Bourgeois Gazette says that Grand Duke Nicholas has given all Russian-German residents in the district between Warsaw and Belgrade frontier six days in which to dispose of their property, preparatory to being removed to the interior, because it was learned that the Russo-Germans were aiding the Germans.

Berlin Statement. Berlin, Jan. 21.—Although spirited fighting is in progress along the western front, the official statement from the German war office today shows that these engagements are merely of local character. The French made repeated attacks near Arras and

## MUST GIVE UP THAW TO NEW YORK STATE

U. S. Supreme Court's Mandate Directs New Hampshire Authorities to Turn Fugitive Over.

[BY ASSOCIATED PRESS.] Washington, Jan. 21.—The supreme court's mandate in the Harry K. Thaw extradition case was issued today and sent by mail to New York City. The Thaw family, deputy attorney general of New York.

Justice Aldrich of the New Hampshire federal court, to set aside his decision to release Thaw on habeas corpus, and opens the way for the prisoner's extradition from New Hampshire to New York to answer an indictment for conspiracy to escape from Matteawan.

The latter is now entirely out of federal jurisdiction and between the state authorities.

New York, Jan. 21.—Harry K. Thaw will sleep in Tombs prison next Sunday night not far from the cell which he occupied when arrested for the murder of Stanford White.

## AUSTRIANS BOMBARD MONTENEGRIN FORT

Land and Sea Forces Make Futile Attack on Strongly Fortified Frontier Post.

[BY ASSOCIATED PRESS.] Paris, Jan. 21.—The Austrians of Cattaro near the Montenegrin frontier have furiously bombarded Lovchen, a strong Montenegrin position just across the frontier with effect, according to the Havas Agency dispatch from Cetinje, Montenegro. The dispatch says: "The guns of the Austrian fleet and the heavy artillery of the army have been firing for several hours. A great quantity of ammunition was expended without damaging the Montenegrin positions."

"A heavy fall of snow the past few days has stopped military operations on all frontiers."

## TROOPS RETURNING TO VILLA'S RANKS

Bandit General Gives Another Assurance Americans Would Be Protected in Mexico.

[BY ASSOCIATED PRESS.] Washington, Jan. 21.—Consular Agent Gutierrez reported to the state department today that Gen. Villa had informed him many of the troops which left Mexico City with Carranza were returning to the ranks. Villa gave assurance of support for protection of Americans and other foreigners.

Advices to the state department said that General Gutierrez had left Pachuca in a northerly direction with "several thousand well armed men," and had issued a manifest denouncing Carranza. Villa and Sapata and calling on the Mexican nation to support him in an attempt to establish peace.

Conflicting reports have been received as to the strength of the Gutierrez movement, but it is believed here he had at least 5000 men.

## AMERICAN SHIP CREW FREED BY GERMANS

Federal War Insurance Bureau Refuses to Insure Steamer Formerly Owned by German Company.

[BY ASSOCIATED PRESS.] Washington, Jan. 21.—American sailors of the crew of the steamer Greenbrier, whose seizure by the British fleet is now the subject of diplomatic negotiations, have been released from detention by German authorities at Bremen.

The federal war risk insurance bureau decided not to insure the steamer or Duclia, former Hamburg American liner now under the American flag, because British authorities have indicated she is certain to be hailed before a prize court to investigate her capture.

However, a policy probably will be issued on her cargo of cotton.

## SHIP LOADS COTTON FOR GERMAN PORTS

Dacia Will Make Voyage Despite Warning of British Government—Ready to Prove Transfer.

[BY ASSOCIATED PRESS.] Washington, Jan. 21.—Treasury officials continued today the completion of documentary proofs of the bona fide transfer of the steamship Dacia, now loading cotton in Texas for German ports, from German to American registry.

The proposed voyage of the Dacia will be undertaken despite the warning of the British government that it would seize the vessel.

## REPUBLICANS FIGHT SHIP PURCHASE BILL

SENATOR WEEKS HAS FLOOR AND TALKS TO SENATE THIS MORNING—DENIES FILL-BUSTERING.

[BY ASSOCIATED PRESS.] Washington, Jan. 21.—Senate republicans continued their fight today on the administration ship purchase bill. Senator Weeks denying that he sought to filibuster, resumed his attack.

Democratic leaders meanwhile sought to reach an agreement on proposed amendments so that their caucus may complete the revision of the bill tonight.

"We want to get the facts before the country, and we are taking the only way to do so to accomplish it," said Senator Weeks.

"I believe there are possibilities of gravest international complication involved in the passage of this bill; that it is economically dangerous; that the sentiment in favor of it is almost negligible and that if passed by this or any congress it would be done as the most flagrant political pressure."

Turning to President Wilson's Indianapolis speech Mr. Weeks declared the people of the country judging from present reports of the bill, could not understand how the president could "have so far elapsed from his previous poise and good taste as to go to the other extreme by indulging in the unfounded statement which his whole address was filled."

Senator Weeks assailed the proposal to place cabinet officers on the proposed shipping board. Examination of the treasury or navy during the last decade, he said, showed them little prepared by experience for such work.

He emphasized his argument that there was no need for the bill, he said 54,000,000 more bushels of wheat had been exported from the last harvest than in any previous year.

"We are denying the world in shipping more than ever before," Representatives of various Italian and Hebrew organizations will argue against the immigration bill when President Wilson gives his public hearing on the measure tomorrow in the east room of the White House.

The American Federation of Labor and number of other organizations will argue for the bill.

President Wilson has indicated already that he will veto the measure because of its effect on immigration.

Postal money, orders of exchange with European countries suspended at outbreak of the war, has been resumed with exception of Belgium and Austria, the latter not including Hungary.

## GIVES LIFE TO SAVE A CHILD FROM DEATH

Dundee Boy Saves Child But Is Killed When Coasting Boat Collides With Post.

[BY ASSOCIATED PRESS.] Dundee, Ill., Jan. 21.—Edward Schumacher, 17 years old, last night gave his life to save a child from death. The boy was steering a coasting boat down the river when he saw another boy and a girl in a small boat. Half way down the hill on a sharp grade the boat became unmanageable and left the shore. Collision with a post was inevitable. Just as the coasting maker threw the child into the snow bank, where it lay unhurt, the steersman lived only a few minutes after the crash. None of his companions were severely injured.

## SPECIAL COMMITTEE BILL IS LAID OVER

Resolution For Reorganizing and Consolidating State Boards Laid Over by Senate.

[BY ASSOCIATED PRESS.] Madison, Jan. 21.—The senate laid over until Tuesday Assemblyman Johnson's resolution providing for special committee of the finance committee to investigate into reorganization of the state department and boards. An attempt by Senator Fairchild to put the resolution on its immediate passage failed.

The senate concurred in its assemblyman's resolution providing for both houses on Tuesday at 2 p. m.

Assemblyman Hanson of Manitowish submitted a resolution on account of the expense that would be attached to the inquiry.

Senator Baxter introduced a bill to permit foreign corporations which are not licensed to do business in Wisconsin, to buy, sell or enforce payment of mortgages on real estate in Wisconsin.

In the assembly a bill by Assemblyman Helm, Madison, provided that students of education in institutions for the blind be permitted to vote only at such places as shall be considered their residences, such to be the residence of parents or guardian.

It was reported that a woman would make a person who is a member of the university of education institution ineligible for appointment by the mayor of the city council. This bill also extends the city auditor's jurisdiction to officers and employees of the state or the United States.

## WISCONSIN'S FIRE LOSS DURING SIX MONTH PERIOD

[SPECIAL TO THE GAZETTE.] Madison, Wis., Jan. 21.—For the half year ending Jan. 1, 1915, Wisconsin suffered a loss of \$2,185,245, and insurance carried was \$5,463,950. The total number of fires was 1,531, as compared with 1,257 for the corresponding prior period. Losses for the prior period were \$1,821,558 and insurance, \$3,460,655. Lightning held a big lead as a primary fire cause, 264 fires being reported, and losses of \$411,650 reported. Next came unknown causes, with 231 cases and losses of \$477,310, and defective chimneys with 83 and losses of \$117,270.

## PROVIDING SHELTER FOR QUAKE VICTIMS

Government Erects Shacks to House Homeless—Fund of \$50,000,000 For Relief Work.

[BY ASSOCIATED PRESS.] Rome, Jan. 21.—The sum of \$50,000,000 having been placed at the disposal of Italian authorities for alleviation of conditions in the earthquake zone, extensive relief work is now being planned.

It is expected that within a fortnight the most serious conditions will have been greatly improved.

Shacks for the housing of the homeless will be erected as rapidly as possible; buildings not destroyed will be repaired; roads will be cleared of debris; traffic, and agricultural and business life in the stricken communities will be restored to normal.

Other relief steps doubtless will be taken by the authorities, such as the remission of certain taxes and hindered measures.

## DISCOVER NEW WILL MADE BY F. A. OGDEN

Former Madison Millionaire's Fortune Again in Dispute at Houston, Texas.

[BY ASSOCIATED PRESS.] Houston, Tex., Jan. 21.—Another will purporting to dispose of a part of the \$100,000 estate of Francis A. Ogden, former resident of Madison, came to light today when a time-aged document dated 1868 was placed in the hands of attorneys. This alleged will, the fourth of Ogden's, in the case, bequeathed much property to Lov Harper of North Carolina, who is said to be dead, but survived by four children.

W. H. Miller, a second-hand book dealer, under arrest charged with forging the name of L. Herrin, said to be a woman and a beneficiary under one of the Ogden wills, will be arraigned on Friday.

Ogden, it is said, never married, and the probability of his estate is complicated further by the fact that it consists mostly of real estate scattered through a dozen states. Disputes with the authorities at Madison resulted in the aged multi-millionaire moving from that city to Texas shortly before his death.

Hunter Arrested. Pittsburgh, Pa., Jan. 21.—Robert B. Hunter of Houston, Texas, was arrested last night by Postoffice Inspector William Walker. Hunter, according to Inspector Walker, is charged with being implicated in the irregularities in connection with the estate of Francis A. Ogden, formerly of Madison, it is charged that Hunter, with two other persons, tried to divert the estate of Ogden from its proper destination by an alleged fraudulent document.

According to Inspector Walker, Hunter was named as witness to sign the will and the two Texas men wrote the will, which asked him to return to Texas and testify in its behalf. Hunter is said to have revealed the whole proceeding and will testify in behalf of the heirs.

## NEW CONCERNS ORGANIZED FOR BUSINESS IN STATE

[SPECIAL TO THE GAZETTE.] Madison, Wis., Jan. 21.—New corporations, Ardmore Farm, Oconomowoc, capital, \$50,000; incorporators, Reuben M. Cecil, Charles G. Hayes and Alfred B. Froelich. E. S. Nekompan, Milwaukee; capital, \$25,000; incorporators, Ernest Guenzel, C. W. Walter and A. Schmidt. J. J. Lehneger company, Neenah; grain, flour and feed, etc., capital, \$50,000; incorporators, J. J. Lehneger, J. J. Lehneger and Mrs. Caroline Lehneger. George Elinke, Long Lake Peninsula company, Milwaukee; real estate, capital, \$50,000; incorporators, F. A. Tate and W. T. Hardy.

The West Allis Gas company increased its capital from \$50,000 to \$100,000. The West Allis Gas company has \$50,000 in capital. Sheldon J. Glass and Edald Haase of Milwaukee are president and secretary of both respectively. The Chicago and North Western Railway company, Lancaster, changed its name to Wisconsin and Illinois Railway company.

## SWITZERLAND WATCHES AMERICAN LIGHT FOR PROTECTION OF TRADE

(Correspondence of The A. P.) Bern, Switzerland, Jan. 21.—Switzerland is awaiting with greatest interest the result of the American efforts for the protection of neutral trade, and the newspapers express the hope that negotiations between Washington and London will at least produce clearness and uniformity.

The federal authorities are having increasing difficulty in provisioning supplies and thousands of tons of supplies are awaiting in rail ports, chiefly Genoa, but dealers are almost unable to get them through to this country although the government has given every assistance.

It is now proposed to consign all imported goods to a federal Government, which, as a matter of fact, is the greatest buyers of food supplies in Switzerland at present.

## SUPERIOR TO HIRE MARRIED MEN IN CONSTRUCTION WORK

Superior, Wis., Jan. 21.—On shipboard it's "women and children first." In Superior, with the present employment problem, it's "married men first."

City official figure that if the men with families can be taken care of, the women and children, in the natural course of events, will be provided for.

The city officials began by planning the reconstruction of considerable street work which ordinarily would have been deferred until spring. Then, out of hundreds of applications for jobs, an even 100 men were selected.

These men have already begun work on two large sewer excavations. The work will permit of only half of them being employed at one time, however, and they are compelled to work in alternate shifts. This condition is expected to be relieved by the fact that the general success of the plan has led residents in the normal case to pay for the sewerage system from Hammond to Grand avenues be undertaken at once. The city commission is expected to order work started on this and several other paving jobs.

The selection of men for the new job just opened is in the hands of F. C. Tomlinson, head of the street department.

## TAFT SAYS COUNTRY NEEDS MODERATION

Nation Must Retrace Unwise Steps That Have Halted Progress—Declares Ex-President.

[BY ASSOCIATED PRESS.] Bloomington, Ind., Jan. 21.—Declaring that the country was halting in business progress and taking the unwise steps that have been taken and needed to be retraced, Wm. H. Taft, former president, said here today that the people should go back to the line of justice, equity and moderation.

Taft was the guest of the Indiana university and delivered the principal address of the founders day exercises, which celebrated the 95th anniversary of the university.

"We need not go back to conditions which led to the great reform and we shall not do so," said Mr. Taft. "Corporations have been driven out of politics and while of course corruption is not absent, the danger of plutocracy has disappeared."

"Part of the cost of the original disease is in the incidental damage from the inevitable excess of remedies."

"The sad feature is that the persons who suffer most are the least able to bear suffering—the wage earners whose efforts and living are dependent upon constant employment."

The former president defended the restriction upon the power of the general primary has not tended to the elimination of corruption of political machine rule.

## UNIVERSITY ELECTS MUNICH PROFESSOR

Dr. Moritz J. Bonn Appointed to Carl Schurz Professorship—Prof. Bonn Resigns.

[SPECIAL TO THE GAZETTE.] Madison, Wis., Jan. 21.—To fill the vacancy in the Carl Schurz professorship at the University of Wisconsin, the regents have confirmed the appointment of Dr. Moritz J. Bonn of the University of Munich. Dr. Bonn is a professor of political economy there and director of the Commercial university at Munich. He is in America on a leave of absence to deliver lectures at the University of California. He has written extensively on colonial policies. At the university he has worked with Dr. Ely and Taylor in the seminar on land problems. The resignation of Prof. Dana C. Munro of the history department was accepted, and William Widenmann of Madison was awarded a school scholarship at the Wisconsin high school for the second semester of the current year.

## NO MORE DISORDERS AT JERSEY STRIKE

No Indication Today of a Repetition of Riots Which Resulted in Shooting on Tuesday.

[BY ASSOCIATED PRESS.] Roosevelt, N. J., Jan. 21.—Roosevelt was quiet today. There was no indication of any further disorders which culminated Tuesday in the shooting of 18 strikers by deputy sheriffs stationed at one of the plants of the American Agricultural Chemical company.

## EVEN LADYBUGS CAN'T ESCAPE DEADLY PROBE

[SPECIAL TO THE GAZETTE.] Bravley, Cal., Jan. 21.—Entomologists from the University of California are making investigations today in the Imperial Valley cantons, seeking to determine what has become of 300,000 ladybugs that were brought here several months ago for the purpose of exterminating the pest of the cantons.

It is a fact well known to the erudite bug expert of the university that a well-known conditioned ladybug had flown away from the cantons. Therefore, the experts were started to learn that soon after the ladybugs were let loose in the valley, they disappeared. Explanations that they had been blown away by the wind were not satisfactory to the professors and the investigation was ordered.

If the ladybugs will perform true to form, entomologists believe they will save many thousand dollars a year to melon growers.

## BUSINESS MEN WILL PLAY BASKETBALL COMMENCING WEDNESDAY NEXT WEEK

Members of the business men's classes at the Y. M. C. A. will enjoy basketball commencing next Wednesday afternoon. The sport will take the place of volleyball only on Wednesday afternoons, when volleyball will be eliminated all other match game. But one match game in volleyball will be played at each class beginning Friday afternoon, when Richards and Wilcox will meet.

Richards, 21 to 14, and Wilcox won from Chase, 21 to 15 at volleyball ball.

## Helping the Manufacturers

In our advertising talks we often speak of the Bureau of Advertising.

The Bureau of Advertising, American Newspaper Publishers Association, is the link between the daily newspapers of North America and all national advertisers.

Its purpose is to promote national advertising for newspapers, and to make general newspaper campaigns as nearly 100 per cent. profitable for the advertiser as possible.

The Bureau is maintained by the subscription of three hundred and forty newspapers. Its counsel is constructive and without prejudice. Inquiries are promptly and cheerfully answered.

## PROPOSE TO ABOLISH STATE HIGHWAY LAW

HALF DOZEN BILLS PROVIDING RADICAL CHANGES INTRODUCED IN LEGISLATURE

Senator Glenn Will Resubmit Bill Vetoed Two Years Ago By Gov. McGovern—Other Legislation Pending.

[SPECIAL TO THE GAZETTE.] Madison, Wis., Jan. 21.—That radical changes will be made in the state highway law at this session is indicated by the introduction of a half dozen bills, either abolishing, curtailing or amending the law as to eliminate state aid. Senator J. Henry Bennett of Vilas has prepared a bill for a county highway system. A measure along the same lines is in preparation by Senator L. E. Cunningham of Beloit. In the house a bill to repeal the state highway law and substitute a county highway system will be introduced next week by C. S. Ballard, Grand Chute. Amendments to the present law have already been offered by Assemblyman W. Woodard of Elgin and S. A. Schindler of New Glarus.

Need Highway Code. "After all the proposals to change the highway law are offered, we ought to call a meeting of all the members interested and have a distributable plan of highway legislation cannot be worked out," said Senator Bennett to the present law.

Assemblyman Ballard will also introduce a bill next week providing for the abolition of the office of divorce counsel and that it had already been introduced and that it does not operate to reduce the number of divorces. He declared that he gave positions to lawyers who draw good fees for the same. He said the sentiment of people in a number of counties favored the abolition of the law two years ago. Circuit Judge J. W. Glavin of Madison, considered a leading authority on divorce, favored the retention of this law before the legislature two years ago, and it is said he will appear with other accomplished lawyers on the subject.

Woman's Suffrage Issue. Woman's suffrage will be made an issue in this legislature by the introduction of a bill by Senator Robert Glenn of Walworth, who made it under preparation. This measure would follow the one he introduced two years ago, which passed both houses only by a narrow vote. Governor McGovern, Senator Glenn and others find an increasing sentiment among people in favor of woman's suffrage and believe the issue should be submitted again to a vote of the electors in 1916.

"Wisconsin in the past has been generous in extending the right of suffrage to citizens," said Senator Glenn. "Before the civil war was fought Wisconsin had extended the right of suffrage to negroes. It now refuses to extend this right to women. The measure which the suffrage proposal received four years ago indicates that the people of Wisconsin are awake to this issue. Since that time several other states have granted woman's suffrage, and the question has become a national one. It is now one of the leading problems before congress."

Increased Compensation. An increase in the amount of compensation to be received by the members of the legislature is proposed in a bill introduced in the house today by Assemblyman Charles F. Hart of Oshkosh. The bill provides that the members of the legislature shall receive \$750 per month, and the question has become a national one. It is now one of the leading problems before congress."

Assemblyman Hart today provides the amount of compensation paid for injury shall be 75 per cent of the average weekly wage. At the present time it is 50 per cent and not to exceed \$750. Another feature of the bill provides for payment at the end of the second week, for the first week's illness, instead of at the end of two weeks as at present. During the past year injured workmen were paid approximately \$1,000,000 for injuries sustained. Under the amendment of the workmen's compensation law, if passed, that would result in practically \$1,000,000 additional benefits to the injured workmen.

Saloon Reform Bill. Assemblyman A. E. Frederick of Kenosha introduced a program for reforming saloons today. The bill introduced a bill providing that all saloons in Milwaukee shall be closed at one o'clock every night and cannot be reopened before 5:30 the following morning; that in cities of the second and third classes all saloons shall be closed at midnight; in cities of the fourth class saloons shall be closed at 11 o'clock and in towns and villages at 10 o'clock and closing them at 8:30 the earliest time for opening saloons in the state shall be 5:30 o'clock the following morning.

Once Election Days. A bill to increase the number of hours that the polls shall be open on primary and election days is also proposed in a measure by Assemblyman Frederick. At the present time towns, villages and cities with a population between 2,000 and 5,000 are required to open polls at 9 o'clock and shall close them at 5:30 o'clock. The Frederick bill would extend this time to 10 o'clock and closing them at 8:30. Mr. Frederick declares that such a measure will do much to increase the vote in the state, especially if the polls are opened at an earlier hour.

Minkley Closes Bill. "The classification as to the vocation of the members in both houses of the legislature indicates the composition of a big storm," said Assemblyman Minkley, scolding Governor Woodard, today in commenting upon features of the governor's message and upon the proposal of one assemblyman to

**Whitewater News**

Whitewater, Jan. 21.—Last evening was the annual meeting of the Mother's Association, held at the high school. There was a large attendance and much interest was taken. The pupils of the third and fourth grade sang several songs. There was a violin duet by Gladys Gustavson and Gladys Garness, a violin solo by Miss Garness, and a solo by Master Harry Conroy. The musical numbers were good and much enjoyed by all. Mrs. Harry King then read an article, "Rational Care of the Child." Dr. Ella Fay gave a talk and answered questions along the line of proper foods, etc. It is very gratifying to the teachers to see so many of the mothers becoming interested in these meetings.

The Civics class of the High School, accompanied by their teacher, Miss Libbie Damuth, and Supt. C. R. Rittenburg, twenty three in all, went at Madison Tuesday to spend a day at the capitol. The legislature had adjourned in the morning, so they put in their time in looking over the building. Governor Philipp welcomed them into his office and made them a little speech, telling them how pleased he was that the schools were interested in what was going on at the capitol. They then visited the House, where they addressed the school. From here they went to the Historical Museum in the library, and also visited the gymnasiums. This day of sightseeing at the capitol in Madison they came on an evening train to Merton Junction, where they were met and brought home by team.

Robert Harris and Miss Myrtle Richards were married at eight o'clock last evening at the home of the bride's parents, Mr. and Mrs. T. Richards, on Janesville street. About forty relatives witnessed the ceremony, which was performed by Rev. C. F. Andrews of the A. E. church. After a short wedding journey they will be at home on the Harris farm east of town.

The contracts have been awarded for work on the new normal gymnasium. Thirty-four firms put in bids on the work. The J. P. Cullen construction company of Janesville, are to do the general construction work for \$26,421. Harry Johnson of Milwaukee, will put in the heating and ventilating systems at a cost of \$3,740. T. Kennedy, of Milwaukee, will do the plumbing for \$3,125. The Stark Mangle and The Co. of Milwaukee, the tiling for \$3,215, and the Piphorn Electric Co. of Milwaukee, the lighting at \$610.

It is voted in Company C, that instead of having their annual banquet, that they have a "feed" after dark. The four weeks preceding inspection. On Tuesday evening of this week the boys enjoyed an oyster stew, served at the armory.

At the regular meeting of the city council Tuesday evening the general charter law was adopted by a unanimous vote. Mr. and Mrs. John Mills have returned to their home in Rockford. Rev. N. C. A. Garness returned last evening from a trip to Stoughton, W. L. Hanson of Portnette, Wis., has been visiting this week. The homes of Joe Dales and A. L. Means, William Olds attended the funeral of a relative at Little Prairie on Tuesday.

Prof. J. G. Goodwin is substituting as chemistry teacher in Rockford college. Otto Rennemo is in Milwaukee today.

## JANESVILLE PROFITS BY C. & N. W.'S MOVE?

PERSISTENT RUMORS SAY THAT COMPANY HAS DESIGNS TO MAKE CITY NEW DIVISION TERMINAL.

## HAVE FACILITIES HERE

Big Switching Yards and Fully Equipped Shops Could Successfully Care for Additional Work.

Recent actions on the part of the Chicago and Northwestern Railway company seem to indicate that there may be something to the rumor among local employees that Janesville is to be the terminus of the Madison and Galena divisions. The Madison division, Belvidere, Ill., until a month ago, an important point of freight transfer with a switching yard nearly as large as the one at South Janesville, is now practically devoted to passenger work. The company is routing its freight traffic to Woods street, Chicago. Incidentally about thirty families in the Belvidere transfer department alone have been taken away from the Illinois city.

Old employees in the city from this see contemplation on the part of the company to shortly make use of the big yards here and transfer the work now being done at Wood street, to Janesville.

Almost a month previous to the abandoning of the Belvidere yards, railroad men knew that there were new designs on the part of the company which would more or less affect Belvidere. The present theory is that Janesville will soon be a far more important point on the Northwestern line.

The plans, as they say they are, will make Janesville the lay-over point for Madison and Galena divisions crews. In fact, it will be the main points of these two divisions goes south as far as Belvidere. A short while ago a considerable portion of the Galena division was taken away, with the result that that division is considerably shorter than previously. The Madison division, on the other hand, is larger.

By making Janesville the terminus of these two railway men figure, the company plans to make both sections of the system about the same number of miles in length.

While local officials of the company profess to know nothing whatever as to the authenticity of the rumor that Janesville will soon be a division point, nevertheless they do not fail to express their opinion on the advisability of the move. Agent Alva Hemming, as quoted just previously, is of the opinion that it is not unreasonable to think that it is railway company may have plans in view to make use of the facilities at South Janesville.

However, as local agents could know, all plans already settled as to whether or not to give Janesville the advantage of the freight now being sent to Chicago for transfer. Railway systems do not peddle their business gratis. It may not be known locally what the plans really are, until everything is ready to place into operation the new working system.

That Janesville would benefit greatly, were the change to be made, is admitted on all sides. Being the division terminal point for an increase of from ten to twenty freight crews and their families, with perhaps the addition of from fifty to seventy-five more families of men necessarily engaged in other lines of work, it would be a great benefit to the city.

It is felt that were the change to be made, the yards and shops of the company here would be fully adequate to take care of the increased amount of work. The switching facilities are excellent and at the South engine can be made. The car department is efficient and because of few bad orders from the Madison division, Chicago is sending between for rip track repairs at South Janesville. The yards will accommodate approximately 3,000 cars.

Eight years ago, when the yards at South Janesville were built, a large number of Northwestern men planned to buy property there and build homes. Everyone thought that this would be a promising suburb to Janesville. People and newspapers alike saw excellent factory sites, doubt, the place would, within a few years, have a population of several thousand.

Railway men have their version of why South Janesville has never advanced in building lines and population any more. They say the extent of two hotels and their occupancy of estate dealers, they say, receiving a fine on the move the company would have made up and took under option large tracts of land and adjoining the railway right-of-way.

When railway men went there with ideas of buying property on which to build homes, they say, the prices asked for ordinary city lots were exorbitant and they refused to pay the high money asked.

For this reason, South Janesville never grew and Northwestern railroad men still live in Janesville.

YOUNG PEOPLE'S CHOIR ENJOY CATERIA LUNCH AT CHURCH LAST EVENING

Members of the young people's chorus choir of the Carroll Memorial

Methodist Episcopal church enjoyed a cateria lunch last evening in the church reception room, beginning at six-thirty. About thirty singers attended. Following the lunch, Miss Emily Sewell, director of the choir, conducted a short rehearsal. All enjoyed the evening immensely.

## POOR DEMAND RULES ON TODAY'S MARKET

Heavy Run of Hogs Results in Another Slump in Price—Cattle Trade Weak.

[BY ASSOCIATED PRESS.]  
Chicago, Jan. 21.—Another heavy run of hogs resulted in slow trading and prices slumped five cents today. The market was ruled by the heavy level of the 31-month bulk of sales range from \$6.60 to \$6.80. A few loads sold at \$6.90. Cattle were also in poor demand although receipts with few changes in quotations. The day's price list follows:

Timothy—8.00@7.50. Clover—12.50@15.00. Pork—\$11.87@17.32. Lard—\$10.61. Ribs—\$9.35@10.12.

WEDNESDAY'S MARKET.  
Chicago, Jan. 21.—Depression featured trade in cattle and hogs yesterday. Lambs advanced 10¢@25¢, the average at \$8.45 standing 65¢ above last week's average.

Heavy cattle closed 10¢@15¢ lower with the best at \$8.25, the lowest top for any week since last June. The average price of hogs at \$6.75 was only 6¢ above last week's average.

Receipts of cattle and hogs yesterday exceeded all expectations, the average total being at least 15,000 head. A general estimate. The number of hogs was 42,000, cattle 7,000, sheep 3,000, and lambs 1,000.

Receipts for today are estimated at 6,000 cattle, 42,000 hogs and 16,000 sheep, against 3,991 cattle, 26,379 hogs, 11,000 sheep, 4,568 lambs, 37,763 hogs and 16,370 sheep corresponding Thursday a year ago.

Hog Average Lower.  
Average price of hogs at Chicago was \$6.75, against \$6.85 yesterday, \$6.78 a week ago, \$8.38 a year ago, \$7.45 two years ago and \$6.27 three years ago. Yesterday's hog purchases followed:

Armour & Co. 10,500  
Swift & Co. 4,000  
S. & S. Co. 3,700  
Morris & Co. 4,000  
Hammond Co. 5,200

Brennan Packing Co. 1,000  
Butchers 1,000  
Shippers 8,000

Total 50,000  
Left over 9,000  
Hog Run is Lower.  
A \$7 top early yesterday stood 15¢ lower than Tuesday and 25¢ below Monday's summit for best hogs. Closing prices were 15¢@25¢ under Tuesday's general range, light showing steady decline. Receipts were estimated as high as 15,000, but a shortage of 100 cars in the gate report cut the probable number to 55,000. Packing droves, 220@252 lbs., cost \$6.65@6.80. It is expected prices will go lower again before last year's low point. Quotations follow:

Bulk of sales.....\$6.80@6.90  
Heavy butchers and ship's.....6.75@6.90  
Light butchers.....6.60@6.70  
Heavy packing.....6.50@6.75

Poor to best pigs, 60@135  
Stags, 50 lb. dockage per head.....5.25@5.50  
Heavy Cattle Lower.  
An early estimate of 15,000 cattle was later reduced to 16,000, a car shortage and the fact that late trains were "hoggy" cutting the probable number. Heavy steers sold 10¢@25¢ lower, while light kinds and butcher stock remained steady. Choice 1.18@1.47½ to steers reached \$9.25, with bulk of fat beef cattle at \$7.00. Veal calves steady. Quotations follow:

Choice to fancy steers.....\$7.90@9.25  
Slaughter good steers.....5.65@7.85  
Yearling steers fair to fat.....6.75@9.25  
Fat cows and heifers.....4.80@9.10  
Canning cows and heifers.....4.40@4.60  
Native bulls and stags.....4.60@7.30  
Poor to fancy veal calves.....7.50@10.50  
Lambs up to \$8.65.  
Only 22,100 sheep and lambs were received the first half of this week. A result of the bad break late last week standing 71,000 smaller than the run in the same period a week ago. General depression in the eastern mutton trade had no effect on the lamb market here, as values advanced to highest point in a week. Best offerings sold at \$8.65. Quotations follow:

Lambs, common to fancy.....\$7.40@8.65  
Lambs, poor to good culls.....6.40@7.35

## STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug-store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffling, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

## PROPOSE TO ABOLISH STATE HIGHWAY LAW

(Continued from page one.)

Reduce the wage of exemption of workmen from \$60 to \$40.  
The governor's message is in line with his past record as a politician, continued Mr. Hinkle. He has no conception of the economic development and change of the social forces in society. He is a true conservative. The general policy of the governor according to his message will be "Stop reforestation and sell the lands now in possession of the state; discontinuing the state insuring its own private corporations, but retain some of the commissions, particularly the railroad commission." The governor considers this a valuable commission. The utility corporations think this a wise judgment on the part of the governor, but the people are of a different opinion. The governor proposes to change the administration of the educational institutions with the point in view to give the capitalists class a better grip on the educational system. ever, before all the governor's proposals are written into the lawbooks our group will see to it that the people know something about them."

KEEPING IN GOOD CONDITION  
Many people suffer from indigestion and constipation and do not know it. A feeling of dullness and languidness, bitter taste in the mouth, headache, when you "are not sick, but don't feel right"—can be traced to sluggish bowels and torpid liver. Foley Cathartic Tablets cleanse the system, arouse the liver, banish indigestion and make you "feel good all over"—light, energetic and ambitious. Sold by W. T. Sherer, druggist.

### WILLARD IS WILLING TO BOX RIVAL HOPES

Taunted by Remarks of his Rival, Big Jess Willard, Offer to Battle Before Johnson Fight.

(By Hal Sheridan.)  
New York, Jan. 21.—Big Jess Willard is matched to battle Jack Johnson in the near future, and these United States in the near future have "passed the buck." In other words, Jess has put it squarely up to his manager and the men who are pushing the titular class, whether he is to engage any of the numerous white hopes before the big mill and by so doing quiet the howls of the multi-tude, "who did you ever whip?" Jess has shifted the matter to the shoulders of Tom Jones and Jack Curley.

Stung by the numerous howls as to what he had accomplished and that he was afraid of the other "hopes," the big cowboy came forth recently with the announcement he was ready and willing to battle all comers, but his managers would not listen to it. Jess said he had always stood ready to show the world he was the one best bet to uncrown the negro, and particularly right now when there seems to be some doubt about the matter.

That certainly puts it up to Tom Jones, Jack Curley, et al. (Could it be possible that these men are afraid to shove the big westerners through the ropes with some of the other hopes?)

Belief in sporting circles is gradually turning that way. If Jess is the best thing in his line it looks as though his managers would be willing for him to prove it. Merely pointing to "his great record," which is plentifully sprinkled with "K. O.'s" of various "Battling Battlers" and "Terrible Terrys" is not proving to the men who shove their shins through the box office window that he is the man to whip the big black Willard. He asserts he is ready and willing to prove all his managers claim for him. Now it's up to Messrs. Jones and Curley.

Without a doubt the game of golf is gaining converts, perhaps more rapidly than any other sport. Once upon a time the sport was confined to the men of some age and up to it, it reaches now into all ages and types of men for its followers.

### CITY FIVES TO PLAY PRELIMINARY MATCH

Maroons and White Sox, Rival City Teams, to Clash Before Cardinal-Belvidere Game.

As a preliminary to the Lakota-Cardinal-Belvidere city team to be played at the Auditorium Saturday evening, the White Sox and Maroons, two of the finest city teams, will play a game in the city.

The Maroons and White Sox, composed of former high school and Y. M. C. A. players, are evenly matched, indicating an interesting game on the big rink floor to settle a rivalry.

With the line-up that the Cardinals have picked to oppose the invading champion, chances are declared bright for a victory for the members of the aggregation have played together in high school when they won the championship and with the Cardinals. With Ryan and Edler in the guard positions the Belvidere five would have trouble in scoring while the Cardinals, the Illinois State team, have trouble in holding Alwood and Dalton, forwards for the Lakotas.

### GIBBONS IS FAVORED OVER JIMMY CLABBY

Janesville Ring Followers Hope to See Mike Gibbons Victor Over Clabby in Battle Tonight.

On the noon train thirty Janesville boxing fans left for Milwaukee to attend the ten round boxing match to be held in the Auditorium tonight between Mike Gibbons and Jimmy Clabby of Hammond, Indiana. Holder of the middleweight title, Gibbons is expected to leave for the Cream City on the later afternoon train, for the fans here are expecting to see a whirlwind mill between these two premier boxers.

While Gibbons is the challenger his record in the fistic circle has been unblemished since gaining the top of the middleweight division and he is picked by many to defeat the clever Clabby tonight. It is admitted the St. Paul "phantom" has much the harder punch and it is a question which is the most perfected boxer, for Gibbons has shown wonderful form in recent eastern matches. Harry Stout will referee.

MORRIS MILLER

The majority of big league managers are backing on the rule which limits their clubs to twenty-one players between May 1 and September 1. Their argument against the plan is a good one, and one which will be given considerable weight by the club owners. The sidearm of the twenty-one players would be enough for the present season, it would not allow them to build up for the following year, would not give them youngsters to work with, kids who would be learning the finer points of the game while sitting on the bench.

"Temperamental Tillie" otherwise Arthur Shafer, is out of baseball for good. This is not a piece of news, of course. Shafer, himself, has repeatedly reiterated statements to that effect, following the famous slip he gave the New York Giants, for whom he third based into a pennant one season not long ago. Shafer's most recent announcement regarding his present connection with the Giants is that he goes the other day. "I have thrown away my uniform, and although I regret it in some ways, I have made my decision and intend to stick to it," he said.

Amid all this talk about saving money in the baseball business, retrenchments in salaries, limiting of rosters and the like, comes one suggestion from the far west which puts all the other economies in the shade. The Western league is the inspired

author of this newest and world-beating idea for saving much kale for the poor, penniless magnates. They have been reading the memories of Russell Sage and the life of John D. Rockefeller—with an occasional dip into Poor Richard's Almanac. After much careful study of these immortal works the magnates met in secret, extraordinary session and finally evolved the following rule, to wit: that the home management shall furnish only two new balls to the umpires at the start of each game, instead of three as heretofore.

Dick Stosh, who decided to quit the ring after his unfortunate experience with Joe Goldberg at Lorain some weeks ago, will probably try to do a comeback in the very near future. Dick made good when in New York and would have no trouble getting bouts there if he does decide to take another whirl at the sport. If Stosh does make the comeback attempt, however, it will be at a welterweight and not as a lightweight. Many believe that he should not have been asked to do 135 pounds for Goldberg and that this weakened him. In any event, Dick has put on weight rapidly during his layoff and now strips at considerably more than 150 pounds, so that 142 is about the best he can do and be strong.

Natick, Mass., is very proud of Thomas Connolly, the American league umpire, who went from a bench in a shoe shop in that city some eighteen years ago to try his hand at umpiring in the New England league, highly recommended by Tim Hurst and Mike Pinn. Starting at Augusta, Me., Connolly quit after the first week as the result of the actions of the players, who were very rough in those days. Connolly was persuaded by the president of the league to return for another trial, and Tim Murnane later recommended the modest young man to the National league, where he made good from the start. He is giving as good service as ever. Connolly has officiated in five world's series and is looked on as the one man thoroughly posted on the baseball rules in the American league.

Manager Bresnahan of the Chicago Cubs says that he has decided that Art Phelan is the man for second base of the Cubs and that he will start the season there. Phelan had rheumatism last season and it prevented him doing

good work, but he writes Bresnahan that he has entirely recovered.

Baseball is the football of Japan. Wrestling is the Japanese football. This is the relation that the two sports bear to each other. In Japan, said Kiyo Sue Inui, general secretary of the Japanese association in Detroit, recently. Like football in America, baseball is the college game of the Japanese and is to a certain extent making its way among the schoolboys. But people in general, outside of the colleges, still cling to wrestling, the only native Japanese sport.

AT MYERS THEATRE.

Ned Weyburn, who can extract more work, wages and winks from a chorus than the great majority of stage directors employed in the production of musical comedies, is responsible for the starring of John Curt's revival of George F. Horner and Jean Schwartz' revised and up-to-date musical comedy, "The Ham Tree," in which these imitable ne-

gro impersonators, McIntyre and Heath, are again starring. Mr. Weyburn selected the chorus for this production from over one thousand applicants, and he is authority for the statement that the girls are among the best clothed, soft-shoed and break-down dancers in the world. McIntyre and Heath in "The Ham Tree" will be the attraction at Myers Theatre Monday evening, January 25th.

AT MYERS THEATRE.

Miss Lydia Borelli, who plays Loretta, the pretty artist model, in George F. Horner's film drama, "The Naked Truth," which is at Myers theatre tonight, is undoubtedly the highest paid woman in motion pictures. For her work in "The Naked Truth," Miss Borelli received 100,000 francs (\$20,000) which averages \$4,000 a reel or \$4 a foot. In addition to this Miss Borelli holds an interest in the profits of the film here and abroad. Also, she has a contract with the makers which prohibits them from showing the film in a city where she is playing a regular stage engagement at the time.

AT MYERS THEATRE.

A refined Western Vaudeville bill is announced for this week end, consisting of comedies, Jewell and Barlowe presenting an act replete with refined comedy and good singing, entitled "The Dope, the Dutchman and the Girl." Doyles & Romanelli present a hand balancing act which is said to be the acme of athletic artistry. Gilbert Lessee, known as "the man with three voices," will be an additional attraction. The regular Universal motion picture program will also be shown.

### HOW TO CURE A LA GRIFFE COUGH

"Coughs that hang on" demand treatment. Stop and think! Reason and common sense tell you that it is folly to "grin and bear it." Those racking la grippe coughs that wrench the body and cause soreness and pains in the lungs yield more quickly to Foley's Honey and Tar than to any other treatment. Forty years' record of successes proves this. For coughs, colds, croup and other distressing ailments of the throat, chest, lungs, larynx and bronchial tubes, you can find nothing that will compare with this reliable remedy—Sold by W. T. **MEN** don't hanker after a big wad that makes them grind and spit. What they want is the small chew that really satisfies—"Right-Cut," the Real Tobacco Chew. When they get it they are just eager to tell their friends about it too.

A little chew of pure, rich, mellow tobacco—cut fine, short shred—seasoned and sweetened just enough, cuts out so much of the grinding and spitting.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that really satisfies you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit. Kollar is the Real Tobacco Chew. That's why it is so popular.

It is a ready chew, cut fine, so that you won't have to grind it. It is a ready chew, cut fine, so that you won't have to grind it. It is a ready chew, cut fine, so that you won't have to grind it.

## SHOPPING FOR FUN.

One of the greatest trials of the average shop proprietor is the mania that some women have for shopping for fun. They order goods to come home on approval that they have no intention of purchasing and idly wandering from store to store by the hour selecting goods they have no intention of keeping. While this practice is more prevalent in the larger cities it is also true of Janesville, and in one afternoon one such woman will often order a considerable amount of goods she does not want, take up the time of the clerks and oftentimes send the packages back to the store before they are opened. Occasionally a woman probably does this in order to create an impression of opulence with her friends, but usually it is only to gratify an idle whim or to pass a few hours, for which she can think of no better use.

This practice of using the stores and shops as places of amusement rather than of business is a habit that is positively wicked in its consequences to the merchants and their salespeople. The merchant suffers from the loss entailed in the damage that often occurs to the goods while in the hands of the purchaser, as well as from the loss arising from the cost of delivering and bringing back this merchandise. He also suffers from the loss of time of the sales people who make the sales and the loss of time of all the other employees of the store who handle the goods before they are sent out.

But it is the salesmen and women to whom those who shop "just for fun" do the greatest injury. In most stores the wages of those who do the selling are based on a certain percentage of the value of the goods they sell. Thus, when a salesgirl gives two hours or so to waiting on a woman who is shopping "just for fun," and will return the goods she orders sent C. O. D., she is suffering a serious financial loss. Not only does her record for that period show no profit to her employer, but during the time wasted in this way she might have made a number of sales, which would have helped materially to secure her an increase in salary.

It is no exaggeration to say that in some of the New York stores the returns run as high as 25 per cent. The great bulk of which is made out of goods returned for no better reason than that the customer never did want them. With the salary of the sales person based on the amount of her sales, this means that her possible earnings are reduced one-fourth by these returns. This is a serious thing, and it should be pressed home on the women who are in the habit of shopping for fun, or who order things sent to their homes simply to impress some companion with their financial standing.

The merchant is powerless to prevent this injustice. Present-day competition will admit only of payment of salaries on such percentage basis as will allow him to compete with other merchants. Nor can he refuse to accept the illegitimate return of merchandise unless the other merchants join him. The whole matter is one of educating the public, principally the women, as to why they should not return goods. They should be shown how the workers are directly injured by this practice, and in a spirit of charity, if the other will prevail, they should be asked not to amuse themselves at the expense of the store's employees.

If such an appeal has no weight with the women who shop "just for fun," it is suggested that they should be appealed to from the standpoint of hygiene. It should be an easy matter to convince any sensible woman that it is impossible for a store to offer immaculate merchandise when so much of it is handled, nussed up and soiled through the abuse of the return privilege.—New York American, December, 1913.

## DREAM OF CENTURIES.

The invasion of England by an aerial fleet is the dream of ages. Old Mother Shipton, while not predicting an invasion, told of men flying over a hundred centuries ago and was laughed at as a dream. But the fact remains that German airmen have crossed the channel, have flown over English cities, dropped bombs, destroyed property, killed men and then flown away leaving a wake of terror. No armed fortifications, no camps of soldiers were destroyed, and the lives and property sacrificed were those of innocent people. This has raised a storm of protest from the British press at the inhumanity of the Germans. They claim it is on a par with the treatment of non-combatants, the women and children of Belgium, and ask the civilized world to take action. Regardless of the results of the war from a military point of view it was

a wonderful achievement, this flying over the sea and land and then landing at their home station safe and sound. No wonder it left a wake of terror in their rear. No wonder the English people protest when their coast can be invaded at will, their towns and cities destroyed by bird-men and they powerless to resist. This war is being fought under the sea, on the sea, under the land, on land, and now in the air.

## THE BALL STARTED.

The legislature has started the ball rolling and the various members are already introducing bills by the score for the repeal of this or that bit of fool legislation that has been enacted into laws during the past decade. If this keeps up there is going to be a decided change in the present statutes before final adjournment comes. However much certain laws need to be amended and altered and how much waste and in the general run of things the reform laws much damage could be accomplished unless wise heads take charge of affairs.

Under the safety first idea why not sand all the walks, and if the property owner has not sand enough to do so, why not put ashes on? More arms and limbs and other injuries are received these slippery days than at any other time of the year. The city is doing its best to furnish sand, but it is up to the property-owners to do their individual share of the work.

The latest appeal for aid from the suffering Belgians should not fall on deaf ears. Here is a little country almost utterly destroyed by the ravages of war suffering under hardships and turning to this great country of ours for food with which to exist on until another harvest time comes or the war ends.

That some of the democrats and progressive republican members of the present legislature will combine to obstruct the passage of certain measures designed to remove the obnoxious features of previous legislation, is to be expected, but a real combination of progressives and democrats is not probable under present conditions.

In many western cities the "jumpy" auto car is taking the place of the street cars and San Francisco boasts that when the Panama exposition opens there will be two thousand in service in that city alone.

If some enterprising person would construct a toboggan slide on one of the hillsides they would coin money these winter days and evenings. It is a sport that belongs to winter and can be enjoyed by old and young.

## On the Spur of the Moment

ROY K. MOULTON

From the Hickeyville Clarion.  
Livin' pictures was given at our opy house last week by the Ladies' Aid. Hank Purdy and Hod Renfrew posed for "The Rascals" and Hod reached into Hank's bottle pocket for to get Hank's bottle while he was in a clinch and Hank soaked Hod on the bogle something desperate. That was the most successful picture of the evening when I got to going good, and Constable Ezra Whipple busted into it just in time to go sailin' through the window and out on a snowbank. That was the last picture of the evening, as somebody turned in a fire alarm and everybody had to go to the fire, which was a fizzle and wasn't half as good as the pictures.

Miss Euphemia Perkins, our poetess of passion, has won four packages of tobacco for sending in the best poem about "Pride of the Gravel Train" Smokin' which will be used for advertising purposes. Col. Mudge says there ain't nothing like having a talented daughter in the family. His wife probably won't have to hit the box of free smokin' tobacco down to Hilliker's store for two or three weeks.

Miss Mudge's prize winning poem was as follows, to wit:

Come all ye smokers, far and near,  
Oh come and see what you kin hear.  
When other smokes gives you pain,  
Just try "Pride of the Gravel Train."

Oh, bring your good old Henry Clay  
And light her up and puff away;  
It wipes the clouds from your brain,  
Does old "Pride of the Gravel Train."

Old Andy Butts is dead, you know,  
He smoked it thirty years or so;  
His smokin' yet, with might and main,  
But not "Pride of the Gravel Train."

Just save your coupons. They're the stuff.  
And then, if you live long enough,  
You'll get a ten-cent walking cane,  
So smoke "Pride of the Gravel Train."

## Love Luck & Gasoline

John Bunny, Wally Van and Lillian Walker present the Vitagraph's latest comedy creation, "LOVE, LUCK AND GASOLINE." It is through their efforts, combined with a story replete with unusual comedy elements, that the Vitagraph Company has been able to present the most enjoyable, laughter-provoking and hugely delightful film comedy ever offered the motion picture public. During the run of the merry screen story at the Vitagraph Theatre, New York City each and every member of the audience that witnessed this whirlwind comedy masterpiece left the theatre with a smiling countenance and many who were but lukewarm picture fans saw it time and again.

"LOVE, LUCK AND GASOLINE" will be shown again, this time at the Lyric, Saturday and Sunday.

## MEETING OF MADISON CONVOCATION CLOSES

Bishop Webb Returned to Milwaukee Wednesday Noon—Visit at Blind School Was Profitable.

The meeting of the clergy of the Madison convocation, which was held at Trinity church, came to a close Wednesday afternoon. Including Bishop William Walter Webb, fourteen clergymen were present, representing all the churches in the diocese. One of the most enjoyable and instructive events on the program was the visit to the state school for the blind on Tuesday, where the clergy were most abundantly entertained by Supp and Mrs. J. F. Hoyer. Several hours were spent visiting the classrooms and seeing the work done by the pupils. Regret was expressed that such small amount of time, but their disposal and one guest remarked that the trip to the school was worth coming for, if nothing else took place in the convocation.

Interests in the convocation were also shown in the business sessions. An Archdeacon Hood of the La Crosse convocation, on "Financial and Business Methods at Small Missions." A paper by R. M. Mackenzie, associate secretary of the Madison convocation, on "Work Among the Boys," provoked a good deal of discussion. Bishop Webb remarked that the latter was the most important subject on the program.

Those present were the Rt. Rev. William Walter Webb, D. D., bishop; the Very Rev. James Shideell, rural dean Milwaukee convocation; the Very Rev. William F. Hood, archdeacon La Crosse convocation; the Rev. Messrs. R. A. Laperson of St. Paul's church, Watertown; Roy W. Mason of St. Peter's church, Fort Atkinson; R. W. Meyers of St. Mary's church, Jefferson; Mark H. Milne of Delavan; A. M. Munger of Emmanuel church, Lancaster; the dean of the Madison convocation, Father Willmann.

During Bishop Webb's stay in Jansville he confirmed candidates at both the local parishes, Trinity and Christ church, Sunday morning, confirmed at the men's meeting, at the high school on Monday morning, confirmed at the women's meeting, at the high school, and made an address to the pupils at the Blind institute on Tuesday afternoon. He returned to Milwaukee Wednesday afternoon.

The preacher at Tuesday evening service was Archdeacon Hood of the La Crosse convocation. He told of the mission conditions in that convocation. The Rev. E. J. Evans of the local parish, preached at the men's meeting, at St. John's church, Evansville, and made an address to the pupils at the Blind institute on Tuesday afternoon. He returned to Milwaukee Wednesday afternoon.

Entertained: Mrs. Simpson G. Lawson of Dodge street, entertained the members of Just Us club on Tuesday afternoon.

## WRITES LETTER FROM SAMOKOB, BULGARIA

L. A. MARKHAM RECEIVES ACCOUNT OF BULGARIAN SITUATION FROM A BROTHER.

## SENTIMENT IN SOFIA

Government Aristocrats Favor Germany. While Peasants Would Join With Russia.

In a letter dated December third, and written from Samokob, Bulgaria, by R. H. Markham to his brother, L. A. Markham of this city, a vivid account of the conditions that exist in that country is given. Markham is a missionary in Samokob, a small town located forty miles to the southeast of Sofia, the capital of Bulgaria. He is holding a position of active director in a boys' school at Samokob. Being a correspondent for London and other papers, Mr. Markham is well versed with conditions as they are in front, and with the surrounding countries. He writes as follows:

"Bulgaria, like many other countries, is wrought up over the war. At present this country is being used by the triple entente to join with against the Germans. While the peasants of Bulgaria are willing to join with the Russians and become a part of the triple entente, the sentiment in the capital, Sofia, is somewhat with Germany, furnishing a reason for the refusal on the part of the Russians to help Bulgaria in the recent Balkan wars against Rumania, Serbia and Greece."

"There is no doubt but what the Bulgarians will join with the allies if the allies are able to persuade them. That is if England and Russia see to it that we get back what we deserve, we will assemble for our armies, one million good soldiers, and we will once more take up arms."

## WILL HOLD HOFFMAN ON FORGERY CHARGE

Three Witnesses Testify in Examination of Hoffman Held For Passing Forged Check.

Testimony taken this morning in the municipal court convinced Judge H. L. Maxwell that there was reasonable and probable cause to believe that James O. Hoffman was guilty of passing a forged check. Three witnesses testified in the preliminary hearing and the state showed a strong case against the alleged forger.

J. F. Newman offered evidence that the thirty dollar check passed on William Taylor, bearing his signature, was forged and Taylor told of Hoffman's passing the paper. William Wogan was placed on the stand and testified that Hoffman admitted to him that "he was in bad" and that he had no account to make good the papers he had on dorsed himself. Attorney Gardner Kellogg appeared for the prisoner with a retainer of \$500. The trial was set for Wednesday the 27th. Hoffman was again committed to jail.

## EUROPE SORE SPOT FOR CATTLE PLAGUE

PESTILENCE TOO WIDESPREAD IN MANY COUNTRIES TO ALLOW FOR SLAUGHTER.

## SUFFER IMMENSE LOSS

Most Rigid Quarantine Regulations Adopted in British Isles and Scandinavian Countries.

Since the outbreak of the foot and mouth disease in Rock county much has been said of the prevalence of the plague in the European countries. It has been maintained by some persons whose authority for the statement was evidently not the best, that the pestilence is out of hand and is allowed to run its course. That it is widespread is true and for that reason it is practically impossible to check it, but also the fact, nevertheless, is exerted to curb the immense losses which are suffered annually. The following bulletin of the United States department of agriculture gives some valuable information in regard to the conditions in Europe.

Because of the prevalence of the foot and mouth disease in Europe and Asia, imports of live stock from these countries are now limited practically to shipments from Great Britain, Ireland, and the Channel Isles. Even with these countries trade has been interrupted for some time past.

Up to November, 1908, American ports were open to Belgium and Holland. In that month, however, some sheep were taken to Belgium from France where the disease was prevalent and brought the pestilence with them. By the end of the year every province in Belgium was affected and Holland was soon thereafter fighting the disease but have not yet succeeded in eradicating it.

In Italy, France, Germany, Germany, and Russia, the plague has existed so long and has gained such a foothold that it is economically impossible to fight it with the American methods of slaughter. It is more profitable to do so would be to kill a large percentage of the live stock in these countries. In consequence, the authorities appear to be making little or no progress in their campaign. The outbreak, for example, which appeared in Germany in 1888 increased steadily until 1892 when it diminished gradually.

For the next few years it reached great proportions in 1893. The outbreak continued to exist to a greater or less extent until in 1911 it attained its maximum. Since that time the disease has been spreading in a more or less steady way.

At that time the total number of cattle, sheep, swine and horses in the United States was 127,572,000, or between three and four times as many. It can readily be imagined, therefore, what it would be if the disease were to spread in this country.

Since the mortality in the disease is comparatively low, ranging from only 3 per cent in mild forms to 30 or 40 per cent in malignant cases, the havoc caused by the pestilence is sometimes underestimated.

The work of various scientists, however, has endeavored to ascertain the degree in which an animal which recovers from an attack of the disease is immune. It has been found that on an average this immunity in Germany is \$7.00 and in Holland \$10.00. In this country the average value of a cow is \$10.00, of a sheep \$3.00, of a pig \$1.00, and of a horse \$10.00. It is obvious that the amount of money spent in eradicating the disease becomes insignificant in comparison with the loss it causes when left to itself.

PRESENTS GRAVE PROBLEM.

The German Government, of course, has not left the disease to itself. The pestilence has been kept under a method of slaughter, but the pestilence has gained too much headway in this country to be kept under such a method to succeed, and the slaughter of the infected herds had to be abandoned. It now appears that the only way of getting rid of it until the virus has been stamped out. At present it seems that as soon as the animals' period of acquired immunity is over and favorable conditions are met, the contagion breaks out again.

The new violence so that the authorities have practically abandoned all quarantine measures. It has been asserted that unless all the infected farms were absolutely isolated and the movement not only of live stock but of persons absolutely prohibited the disease could not be stamped out. Such a quarantine is, of course, utterly impossible to enforce. In certain portions of Germany, the disease is inevitable, and it is to be done with it by exporting their stock deliberately to mild cases in other parts of the country.

An immediate mild case of the disease is stamped out. Such a quarantine is, of course, utterly impossible to enforce. In certain portions of Germany, the disease is inevitable, and it is to be done with it by exporting their stock deliberately to mild cases in other parts of the country.

## Boils Go

Benetol Kills the Germs that Cause Boils and Carbuncles—No Germ Can Live Where Benetol Is. Wonderful Discovery by College Professor.

A single drop of Benetol to 160 parts of water makes a solution that kills every germ! Yet Benetol is not a poison, does not eat away or even irritate the tissues and is prescribed internally for stomach or bowel troubles.

What has this to do with boils and carbuncles? Everything. Such eruptions (like eczema and other skin diseases) are due to germs. Kill the germs and all such eruptions become a thing of the past. Carbolic acid would kill the germs, but you can't put such a virulent and poisonous chemical on your skin. Benetol you can use freely with the certain knowledge that it will kill every germ it comes in contact with and rid you of your trouble.

Rid yourself of your boils, carbuncles, eczema or other skin troubles with Benetol. Get a 25c, 50c or \$1.00 bottle from your druggist today! Read the directions that come with it and find out its many uses for you and your household have for this new wonder of science. If your neighborhood druggist has no Benetol, ask him to get it for you.

The Benetol Co., Minneapolis, guarantees the truth of this advertisement.

Benetol is sold in Janesville by Smith Drug Co., 14 West Milwaukee St., McCue & Russ, 14 So. Main St.

### How To Make the Quickest, Simplest Cough Remedy

Much Better than the Ready-Made Kind and You Save \$2.—Fully Guaranteed

This home-made cough syrup is now used in more homes than any other cough remedy. Its promptness, ease and certainty in conquering distressing coughs, chest and throat colds, is really remarkable. You can actually feel its take hold. A day's use will usually overcome the ordinary cough—relieves even whooping cough quickly. Splendid, too, for bronchitis, spasmodic croup, bronchial asthma and winter coughs.

Get from any druggist 2½ ounces of Pinex (50 cents worth), pour it in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you—at a cost of only 54 cents—a full pint of better cough syrup than you could buy for \$2.50. Takes but a few minutes to prepare. Full directions with Pinex. Tastes good and never spoils.

You will be pleasantly surprised how quickly it loosens dry, hoarse or tight coughs, and breaks the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent cough.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, rich in quinine, which is so healing to the membranes.

To avoid disappointment, be sure and ask your druggist for "2½ ounces Pinex," and don't accept anything else.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

### CHILD OF EIGHT WEAK AND AILING

LITTLE COLLINS' GIRL ALSO HAD STUBBORN CHRONIC COUGH—FATHER TELLS HOW SHE WAS RESTORED TO HEALTH BY VINOL.

Lakeport, N. H.—"Our little girl, 8 years of age, was in a debilitated, run-down condition, and had a stubborn chronic cough. While she did not have to stay out of school, on account of her condition, she was weak and ailing all the time and far from well.

"We treated her cough, but nothing seemed to help her until we tried Vinol, after which we noticed an immediate improvement. Her appetite increased and now she is strong and well and we can recommend Vinol to other parents who have delicate, ailing children."—George A. Collins, Lakeport, N. H.

What Vinol did for this little girl it will do for other weak and ailing children, because they need the tissue-building, strengthening cod liver elements and the tonic iron that Vinol contains. It is delicious to the taste.

That's why Vinol builds them up so quickly, and we ask parents of delicate children in this vicinity to try Vinol with the understanding that we will return their money if it fails to give satisfactory results. Smith Drug Co., Janesville, Wis.

## THE MASTER KEY

By John Fleming Wilson

BY SPECIAL ARRANGEMENT FOR THIS PAPER MADE WITH THE UNIVERSAL FILM MANUFACTURING CO. (Copyright, 1914, by John Fleming Wilson.)

In the other room they held a consultation. The physician listened to their explanation of what the girl had been through and then said gravely: "She must have an absolute change of scene for a time. Get her away from here instantly."

"But where?" Dorr demanded. "Why not take her to the southern part of the state for a little while?" he suggested. "But whatever you do, do it quickly. Her nerves won't stand much more."

"I know just the place," Kane said. "Take her to Los Angeles and then out into the hills to some quiet hotel. You can catch the night train."

"Nonsense!" Everett said quickly. "All of you go with her. I'll look after matters here for a week. If need be I'll go down to the mine myself."

With the papers safely in her possession at last Jean Darnell became once more the guiding spirit and told Wilkerson that there was only one thing for them to do—get out of town immediately.

"Drake is in jail, and we'll have to bail him out through some third party. We haven't trust ourselves in the hands

of the police. You can trust Dorr to be looking for those papers right this minute."

"I promised Drake by a messenger that we would have him out before night," he responded.

"We must save ourselves first," she said angrily. "And we must be disguised."

After some argument Wilkerson agreed, and they decided to go south.

"It will give us time to plan things out, and you can work things out at your leisure," Jean told him.

"But how shall I disguise myself?" he demanded.

Mrs. Darnell's eyes gleamed maliciously. "You must go as an old man," she told him—"my father, you see."

He rebelled, but finally acquiesced, and within a short time Jean and the maid had transformed him into a very presentable old man.

"Now, go and buy our tickets," she ordered. "Estelle and I will pack up while you are gone."

"Tickets to where?"

"Tickets to Los Angeles," she snapped.

So he departed, to return in an hour with the tickets and an expressman.

When the trunks were gone Mrs. Darnell sat down with Wilkerson, and they went over the situation again, with the result that she took his advice and disguised herself and made Estelle also do the same.

After a hasty supper they then called a taxi and went to the station. Mrs. Darnell and her maid immediately entered the drawing room reserved for them, and Wilkerson fed the porter to make up his berth in the body of the car immediately.

"Safe!" he muttered to himself as the wheels began to turn and he saw the faces of several plain clothes men on the platform.

Neither he nor Mrs. Darnell was aware that in another car Ruth and

her maid and John Dorr and Tom Kane were also heading for the south.

### CHAPTER XVII.

#### The Forged Deeds.

WHEN the train pulled into Los Angeles the next morning John Dorr's party got off, and John left Ruth with

Tom Kane while he went to engage an automobile to take them to Beverly Hills, a suburb recommended by Everett as quiet and restorative for shattered nerves.

As they stood there Wilkerson, Mrs. Darnell and Estelle also got off the train, still disguised, and were hurrying away when Wilkerson observed Ruth and called Jean's attention to her.

For an instant she was nonplussed. Then she said in a low tone: "So much the better. We can keep an eye out on them."

"I must find out where they are going to," Wilkerson returned. "I don't like the looks of it."

He soon came back with word that they had ordered the car to take them to Beverly Hills.

After some inquiry Wilkerson found the address of a hotel that seemed to answer their requirements, and they were soon on their way thither in a taxi. Within an hour the deft Estelle had installed herself and her mistress in a comfortable suite. Wilkerson took a room near by. Then came the question of their disguises.

"There is no need of wearing them any longer," Wilkerson stated. "If need be we can put them on again."

Mrs. Darnell laughed scornfully. "Yes, and all the hotel people saw us come in with our disguises on. What will they think if they see entirely different people occupying these rooms?"

Wilkerson had already started to remove his makeup. Now he paused. But his reckless nature got the better

of him, and he laughed at her fears. So they both were soon their real selves and sat down to a hearty breakfast in Mrs. Darnell's rooms.

This ended, Jean took out the papers and spent an hour going over them carefully. Wilkerson smoked nervously, but did not interrupt her. When she laid the documents down he saw a queer glitter in her tawny eyes.

"So it has come to the old game, eh?" she said in a low voice. "I thought you had had enough of that."

"Enough of what?" he demanded quickly.

She smiled maliciously. She formed the word slowly and precisely: "Forgery!"

His dark face grew paler, and his eyes flashed ominously. "I did it for you that time—and no thanks! But this is all right. Those deeds are genuine."

"They merely assure the property to Thomas Gallon and his heirs and assigns. When you found Tom Gallon at last and had him ready to do anything you wanted just as the price of your silence I suppose it didn't occur to you to have him dead over the 'Master Key' mine to you, did it?"

"He wouldn't have done it!" he burst out furiously. "He shot me once. He would have shot me again to save the mine for the girl."

"Then what good are these papers?" Gradually he perceived the drift of her speech. He looked at her for a moment dumbly, as if for instruction. But she was ruthless. He must propose the crime himself. She handed him the papers.

He stared at them and then glanced across at Jean. She was waiting. He cursed her under his breath. She had always been waiting—waiting for him

to break the law, to steal that she might have comforts and jewels and keep unimpaired that beauty that had been his downfall. But the spell worked, as it had worked before.

"I'll have to go out and buy some blank deeds," he said laboriously. "I may have to look up some other points, too, about these papers."

As he left the room Jean Darnell looked after him, lazy triumph in her eyes.

"Estelle," she said languidly, "you may dress my hair. I shall go to a matinee this afternoon. If Mr. Wilkerson comes, tell him I am engaged till tonight."

Life at Beverly Hills was a welcome change to Ruth after the strenuous days that had passed since she left the "Master Key" mine.

There were not many at the hotel and the most prominent figure among the guests was a tall, carefully dressed Englishman, so typically the tourist that the old cook insisted on identifying him on the register.

"I ain't seen many of the new kinds of people," he explained. "I've been out in the mine so many years that the styles in real gent's has kind of escaped me. I admire to know just what kind of birds I'm roosting with."

"Who is he?" laughed Ruth, as they gazed out at the rising hills.

"He's marked down as Sir Donald Faversham, and he's from the British Isles," Tom Kane rejoined. "He is here for his health, they say. I suppose that's why he has to wear them white ankle warmers on his legs."

"Those are called spats, Tom," said John, smiling. "That eyeglass is a monacle."

"Does he see through it?" inquired Kane, with apparent anxiety. "I reckon he was near sighted, for I spoke to him a while ago and he didn't even see me."

Oddly enough, Ruth blushed at this. Sir Donald had seen her, and she had been made aware of it instantly; not that Sir Donald had been in the slightest offensive. He had merely silently testified by respectful glances his appreciation of the arrival of a very pretty woman.

John Dorr saw the blush and interpreted it rightly. He, too, had observed the Englishman's sudden interest in the lovely girl. For the first time he felt a sharp twinge of jealousy. He had so long been alone in Ruth's regard that he had not analyzed his own feelings toward her. He determined that Sir Donald Faversham should not impose his company on them.

The very next morning, when Ruth and John came out from the hotel ready for a stroll, Faversham lay in wait for the old cook and asked him for a match for his cigarette. Tom reached into his waistcoat pocket and pulled out a bunch of black matches, which he handed out with an air of doing a service to some one he could not see. Sir Donald looked at the queer matches, not knowing the peculiarities of the western sulphur article, and in spite of himself Kane had to instruct him to pull off one of the matches and strike it. When Sir Donald choked and sputtered over an inhalation of brimstone Tom looked profoundly concerned.

"They're a little strong for some people," he remarked pityingly. "Strong!" answered Faversham, wiping his eyes. "I should jolly well say they were!"

## Dinner Stories

At a dinner dance, after the marriage, the girl's partner, a spectacled young man, said to her: "Let's go and

walk in the sunken garden." "I don't want to go into the garden," the girl said shyly, "without a chaperon."

"Oh, we don't need a chaperon, I assure you," said the spectacled young man.

"Then," said the girl, "I don't want to go into the garden."

A fledgling dentist was glad of the opportunity to fill the practice of a friend in a country town for a few weeks while the latter enjoyed a vacation at the seaside. One day a farmer came in—a big muscular chap, full-blooded—one of the sort whose teeth come like the roots of oak trees.

As he sat in the chair he asked, "Will it hurt?"

Feeling in a rather jocular mood, the fledgling answered, "Well, if it doesn't, it shan't cost you anything." Then he fell to work. The tooth came even harder than he expected, so as the man got up from the chair and pulled himself together, he had not uttered a sound—the dentist said, "Well, did it hurt?" "Not a bit," answered the countryman, and strode out of the office, leaving the dentist minus a fee.

Uncle Ezra—Eph Hoskins must have had some time down in New York.

Uncle Eben—Yep. Reckon he traveled a mighty swift pace. Eph's wife said that when Eph got back and went into his room he looked at the bed, kicked it and said, "What's that dern thing for?"

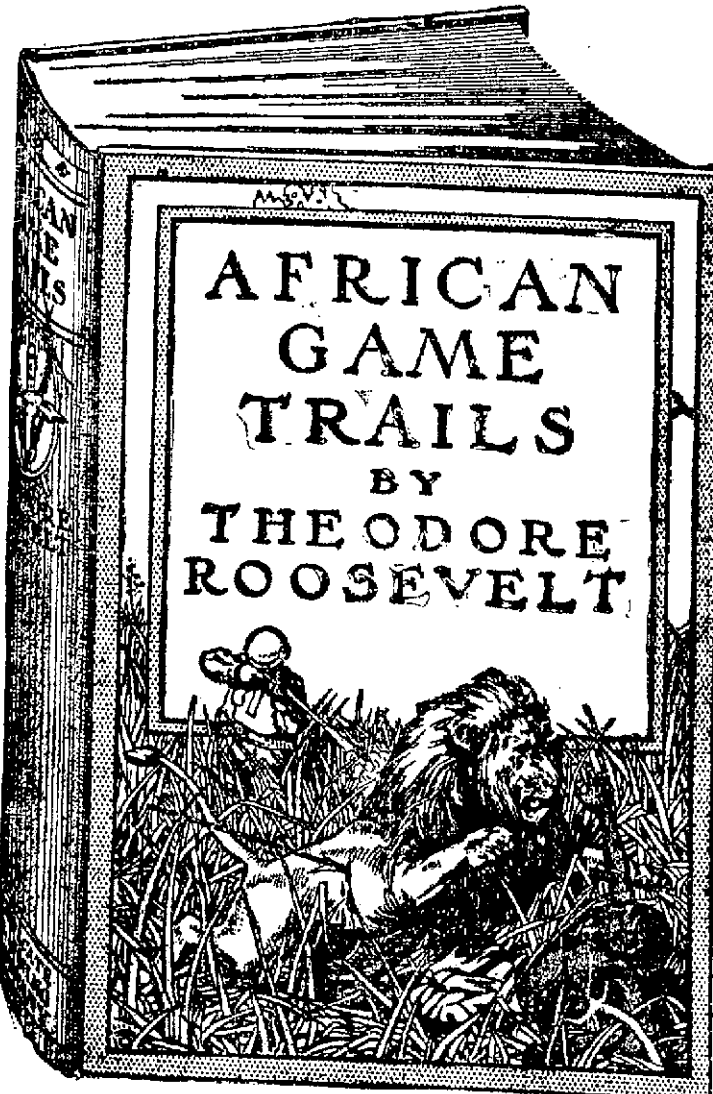

SOME HIT. "So you made a great hit in your presentation of 'Hamlet'! I suppose the audience called you to come out before the curtain?" "Called me? They dared me to come out!"

## CHURCH EFFICIENCY EXPERT IS SPEAKER AT BAPTIST MEETING

Dr. Frederick A. Agar Gives Interesting Address Following Brotherhood Banquet Last Evening.

Dr. Frederick A. Agar of New York City, field secretary for the northern Baptist convention, was the guest of the men's club of the First Baptist church at their banquet last evening, after which he gave an address in the Sunday school room, in connection with the conference of the Janesville Baptist Association, which has just closed a two days' session.

Dr. Agar is an efficiency expert in the matter of church business and organization. In his remarks last evening he gave some "inside information" on the ways and means by which churches might become more awake to the needs of the community and render more valuable and effective service.

The whole United States comprises Dr. Agar's field of activity. He is continually traveling, the jump to Wisconsin being made from Massachusetts. Thousands of churches are visited in the course of a year, and the attempt is made in each case to analyze as far as possible the individual church needs. During a two weeks' stay in Wisconsin Dr. Agar will be engaged in this sort of efficiency work.

Not only does Dr. Agar give attention to the organization side of church activities but he also aids in the inspirational and brotherhood work, in fact in any way which he can improve the service of the church to its members and the community.

"When I meet a group of ministers," said Dr. Agar, "I question them closely concerning their ways of conducting church affairs. We take up the various propositions in a friendly way, make suggestions, and apply remedies. My work is not always pleasant as it is not the easiest thing in the world to tell a minister that he is fifty per cent inefficient. So it requires considerable tact and skill to make criticism in such a way that they will be benefited. Many times I find methods and plans which have been successfully tried out under certain conditions. I make a note of these and actually try them out myself, when I get an opportunity, so that I can study all the phases of the specific case. Then I am in a position to make a recommendation when I find similar conditions in another church, and in addition to saying I have seen this tried out in such and such a place, I can also say I have tried it out myself."

In addressing a theological student recently Dr. Agar told the students that there were three requisites for the ministry: "Be natural; be clean; let your own personality show itself. Second, be clean both inwardly and outwardly. You can't preach the gospel message in soiled clothes. You can be in a threadbare suit but you can be spotless. And last of all, keep eternally at it. The greatest curse of the Christian ministry is idleness."

In the course of a conversation Dr. Agar spoke of the work which is being done by the evangelist Billy Sunday. He said that the Baptist denomination was thoroughly in sympathy with his work. "I do not always approve of his manner and method," said Dr. Agar, "but his earnestness is unquestioned and above all he is natural. He possesses the power to move men and women from their inertia. After they have been inspired by Sunday's fervent appeals it remains for the churches to do the rest."

Dr. Agar is a very pleasant and anecdotal epigrammatist with which to illustrate his remarks. He told some interesting facts with reference to his personal history in his address last evening. While a missionary to Africa he was stricken with complete paralysis, which he first mistook for leprosy. He was brought home to New York, where he was finally cured under the care of his father, an eminent physician.

A large delegation from the Beloit Baptist Brotherhood were the guests of the Janesville club at the supper, and remained for the exercises of the evening.

Emerald Grove, Jan. 20.—The Ladies Aid society will hold their next meeting at the home of Mr. and Mrs. Earl Wetmore Thursday, Jan. 28th, with picnic dinner. A cordial invitation is extended to everyone.

Miss Helen Brand of Janesville was a week end guest of Miss Pearl Barlass.

A meeting of the Emerald Grove Congregational church and society is called by the trustees, after church services on Sunday, Jan. 24, 1915, to act on the resignation of the pastor, C. A. O'Neil.

Eighty-four people ate dinner at the meeting and Allen's last Thursday. Twelve dollars and fifty cents was taken in.

## "CABIRIA" HOLDS VAST AUDIENCES

Photoplay Masterpieces at the Apollo Surpasses Human Belief.

For nearly three hours mighty audiences at the Apollo were held enraptured yesterday at the production of "Cabiria," which is without question the most magnificent and wonderful drama ever produced.

D'Annunzio, the creator, has worked out the story very beautifully in its many details with the solemn rank of historical events forming a rare background.

Aside from its vital subject matter the technical perfection of the production would keep one in a perpetual state of gasping, could one for a moment lose the impression that he were seeing the reality. However, the incidents are too gripping to allow a second's cogitation upon the power behind, or rather the camera, until it is all over and you can sit quite still, trying to realize that you have not actually seen a mighty mountain pouring out its flaming heart upon a great people, and witnessed a city crumbling away. This is the disaster that separates little Cabiria from her parents and starts her on her adventurous life.

There are battles in which the walls of ancient cities are scaled. All the old implements of warfare are so faithfully reproduced that one is held breathless by the time molten lead is ladled upon the fighting horde below. There are desert scenes where camels, outlined against a desert sunset, trudge through the sands, and again wintry scenes depicting Hannibal's crossing of the Alps. All are done impressively. The settings are impressive and the cast is fully imbued with D'Annunzio's feeling.

That this marvelous spectacle was appreciated and not he said, it was a picture that will long dwell in the minds of those who saw it.
